

## **Migration in Belgium**

**Maxim Bianca**  
**Di Franco Federica**  
**Gallo Silvia**  
**Orsatti Mirko**  
**Udine Clementina**

This research is based on Eurostat database, updated to 2016. The outcomes show that the main chanel of entrance is family reason, and this phenomenon involves women more than men, while labour migrants are mainly men. Observing asylum seekers data from 2008 to 2016 we can see an increase of them since 2014. Flows of migrants are decreased from 2011 to 2012.
